Then consult the current season flyer for payment information as well as any early bird deals. You can either pay the league in full with one credit card (online) or you can spread the payment amounts among your players by determining the cost per player to pay off your team fee

For example: If the league costs are 10,000 per team, you can set up an online payment amount with 8 players paying 1000 and 4 players paying 500.

You will need to let your players know the amount each of them needs to pay in the online registration module. For the early bird payment, the early bird amount payment must be reached by the date listed on the flyer at 5pm.

What is a captain's account?

A captain's account is provided to you by the League Manager prior to the start of the season once you are confirmed into the league. This is where you manage your roster including player suspensions.

How do I submit my team roster?

You must enter your roster via you captain's account by using players USA Hockey numbers. It is your responsibility to make sure that these players are on your roster. Have your players email you their USA Hockey Number so you can add them to the roster. There is no need to email any roster to any league official. The league does not differentiate full time players from substitutes so, any player on the roster is considered a member of the team. Please read the player eligibility requirements for in season and post season play.
